A number of additions to the program were suggested, including the reception for the wives of the cattlemen who will be here for the meeting. This reception will be arranged through the Women's club and will probably be held in the ball room of Hotel Paso del Norte on the evening of the smoker and barbecue, which is to be arranged for the cattlemen.

There will be plenty of music for the cattle club. Clarence Adams was appointed chairman of the music committee of the executive committee and will have charge of the bands for the week. The two regional bands—the 23d and the second cavalry—will be employed and the 23d orchestra will probably be used for the reception to the visiting women and for any playing inside which may be necessary. Band concerts will be given each day of the meeting and the guests will be serenaded at the hotels in the evenings.

REVENUE CUTTERS
SAVE 2212 PERSONS
Washington, D. C., Feb. 10.—The United States revenue cutter service—the Red Cross of the sea—broke all its previous heroic and humanitarian records during the fiscal year 1912. Thousands of human lives and hundreds of tonnage-tossed vessels, valued with their cargoes at nearly \$11,000,000, were saved from the perils of storm-swept seas by the little cutters which guard the coastline of the United States in an unbroken line from Maine to Texas and from Alaska to California, nervously alert for the "S. O. S."

The annual report of Capt. E. P. Berthoff, commandant of the service, is a recitation of thrilling adventures of this arm of the federal government, older than the American navy. A total of 269 distressed vessels were assisted during the year and their burden of 2212 souls rescued from danger which in many cases seemed impending death. One hundred and six persons were actually saved from drowning.
